

CARS24 Welcomes CarInfo to Strengthen Vehicle Ownership Experience

CARS24 has announced the acquisition of CarInfo, a leading vehicle information and management platform used by over 12 million users every month. Built to simplify vehicle ownership by making critical car and bike information instantly accessible, CarInfo addresses long-standing gaps caused by fragmented systems. With this acquisition, CARS24 strengthens its mission to simplify car ownership at scale. CarInfo will continue to operate as a standalone app with its existing team.
