

SCORPIO^N

Mahindra & Mahindra Ltd., Automotive Sector, Mahindra Tower, 3rd Floor, Akurli Road, Kandivali (E), Mumbai - 400101, India. Tel: 022 -2884 9588,
Fax: 022- 28468522 | <http://auto.mahindra.com/suv/scorpio-n>

All features mentioned are not available on all models. Accessories shown are not a part of the standard equipment. Performance figures may differ in conditions other than test conditions. Vehicle body colour may differ from the printed photograph. In view of our policy of continuously improving our product, we reserve the right to alter specifications or design without prior notice and without liability. We reserve the right to add or delete any feature or elements in any of our models without any prior notice or without any liability. Please check model details with your nearest dealer. Android Auto™ and Apple CarPlay™ are compatible with Android™ and iOS mobile devices respectively. The software and security mechanisms in the vehicle are subject to ongoing development. Like with computers or the operating systems of mobile devices, the software and security mechanisms in the vehicle may also be updated at irregular intervals.

THE BIG DADDY
OF SUVs IS HERE

SCORPIO^N

mahindra^{Rise}

LET THE OTHER SUVs KNOW: DADDY'S HOME.

INTRODUCING THE SCORPIO-N.

Let's be entirely honest. You know what you're looking at. You've seen its towering presence on the road. You've heard the rumble of its engine and the chatter that follows. You know, **the Big Daddy of SUVs.**

What you don't know is that we've taken everything it was famous for and elevated it further. It looks ahead of its time, drives confidently, and feels every bit like the dominant force of nature it always was. What you're about to read are a few gentle reminders of why respect isn't requested here. It's expected.

STARING IS ALLOWED. DADDY LIKES ATTENTION.

The Scorpio-N wasn't built to blend into the background or politely squeeze into the status quo. It was sculpted with a towering, larger-than-life silhouette that naturally alters the energy of any street it enters.

We took sophisticated urban styling and gave it an unmistakable, unyielding attitude.

It's All In The Eyes

The signature double-barrel LED headlamps pierce through the darkest nights. Flanked by sting-like LED DRLs framing the fog lamps, this face does two things flawlessly: it gives you an uncompromised view of the road ahead, and it ensures nobody can look away.

A Polite Notice Of Intent

Changing lanes shouldn't be a guessing game for others. The sequential LED turn indicators add a sharp, futuristic touch to the design, gracefully letting the world know exactly where you are heading next.

Claim The High Ground

Look at the proportions. The lofty shoulder line, the high-set sculpted bonnet, and the newly redesigned R18 Diamond Cut Alloy Wheels. They ensure you are always looking down on the traffic. Never at it.

Undeniable Face Card

The Scorpio-N chases horizons and looks handsome while at it. The bold, full-width front grille is embellished with premium chrome talons, flanked by fierce protective cladding.

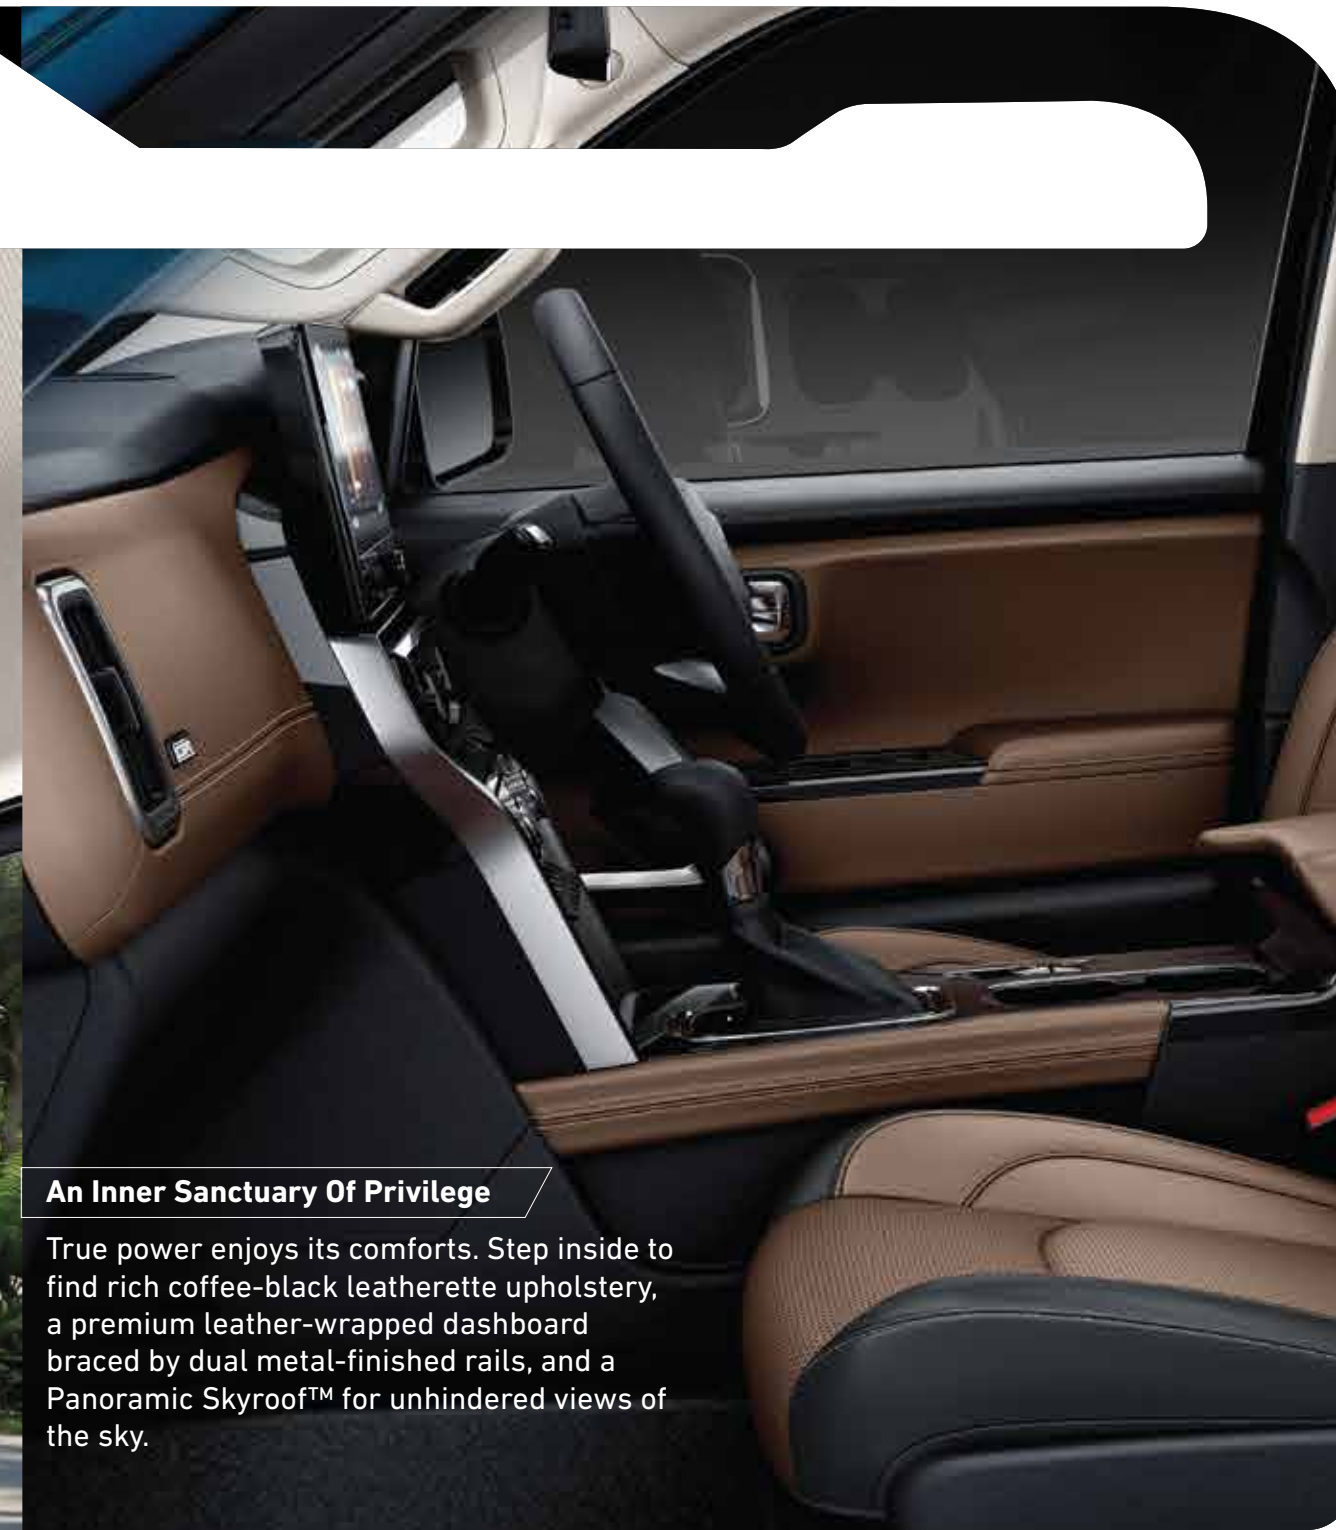

A Broader Perspective

Why limit your vision? The newly introduced Panoramic Skyroof™ floods the cabin with natural light and opens up an unhindered view of the world above. It adds an entirely new dimension of grandeur to an already commanding cabin space.

An Inner Sanctuary Of Privilege

True power enjoys its comforts. Step inside to find rich coffee-black leatherette upholstery, a premium leather-wrapped dashboard braced by dual metal-finished rails, and a Panoramic Skyroof™ for unhindered views of the sky.

DADDY'S SMART

Any SUV can be built with grit.

But this one is equipped with an advanced, highly intuitive human-machine interface engineered to feel like a seamless extension of yourself.

Eye Of The Tiger

While everybody else struggles with guesswork, you enjoy total visual sovereignty with the new **540° surround view**. 4 cameras effortlessly map out your domain in 2D and 3D detail, giving you eyes everywhere.

Visit Tomorrow Land, Today

Powered by the Qualcomm 6155 Chipset and the brilliant Adrenox cockpit controller, the Scorpio-N is here to dictate the future. With over 70 connected car features at your disposal via the high-resolution cabin display on your smartphone app, managing your kingdom is entirely seamless.

Big Screens For The Big Daddy

An SUV with a massive presence deserves an equally massive command center. We've radically dialed up the cabin's grandness with a giant 31.24 cm HD Infotainment system and a crystal-clear 26.03 cm HD Digital Cluster. It's an expansive, high-resolution environment that puts GPS, Bluetooth, and an all-seeing 540° Surround View Camera system right on the big screen.

Ventilated Seats

No matter the weather outside, you'll always be cool on the inside. Both the Driver and Co-driver seats come equipped with ventilation features which provide efficient air circulation and decrease temperature at seat touch points, for a comfortable driving experience.

Music For The Musings

Why simply listen to music when you can exist inside it? The custom-engineered 12-speaker Sony system uses advanced acoustic science to envelop the cabin in a 3D immersive audio experience.

Wireless Charger (With Active Cooling)

The wireless charging pad features built-in active cooling that intelligently responds to the cabin temperature, ensuring your phone powers up rapidly without ever overheating.

Your Word Is Law

You shouldn't have to lift a finger. With built-in Alexa voice control, the entire cabin responds to your voice. Speak your mind, and consider it done.

ALL THAT POWER
AND NOT A SINGLE FUSS.

Try marrying a devastatingly powerful engine with a remarkably smooth transmission. You get a driving experience that is completely unparalleled. With the Scorpio-N, when you press the pedal, you should just feel the world moving out of your way.

Nerves Of Steel

Power runs in Daddy's veins. The 149.14 kW mStallion Turbocharged Gasoline Direct Injection engine (380 Nm Torque) and 128.6 kW mHawk All-Aluminium Diesel engine (400 Nm Torque) overflow with the power that is synonymous with the Scorpio DNA.

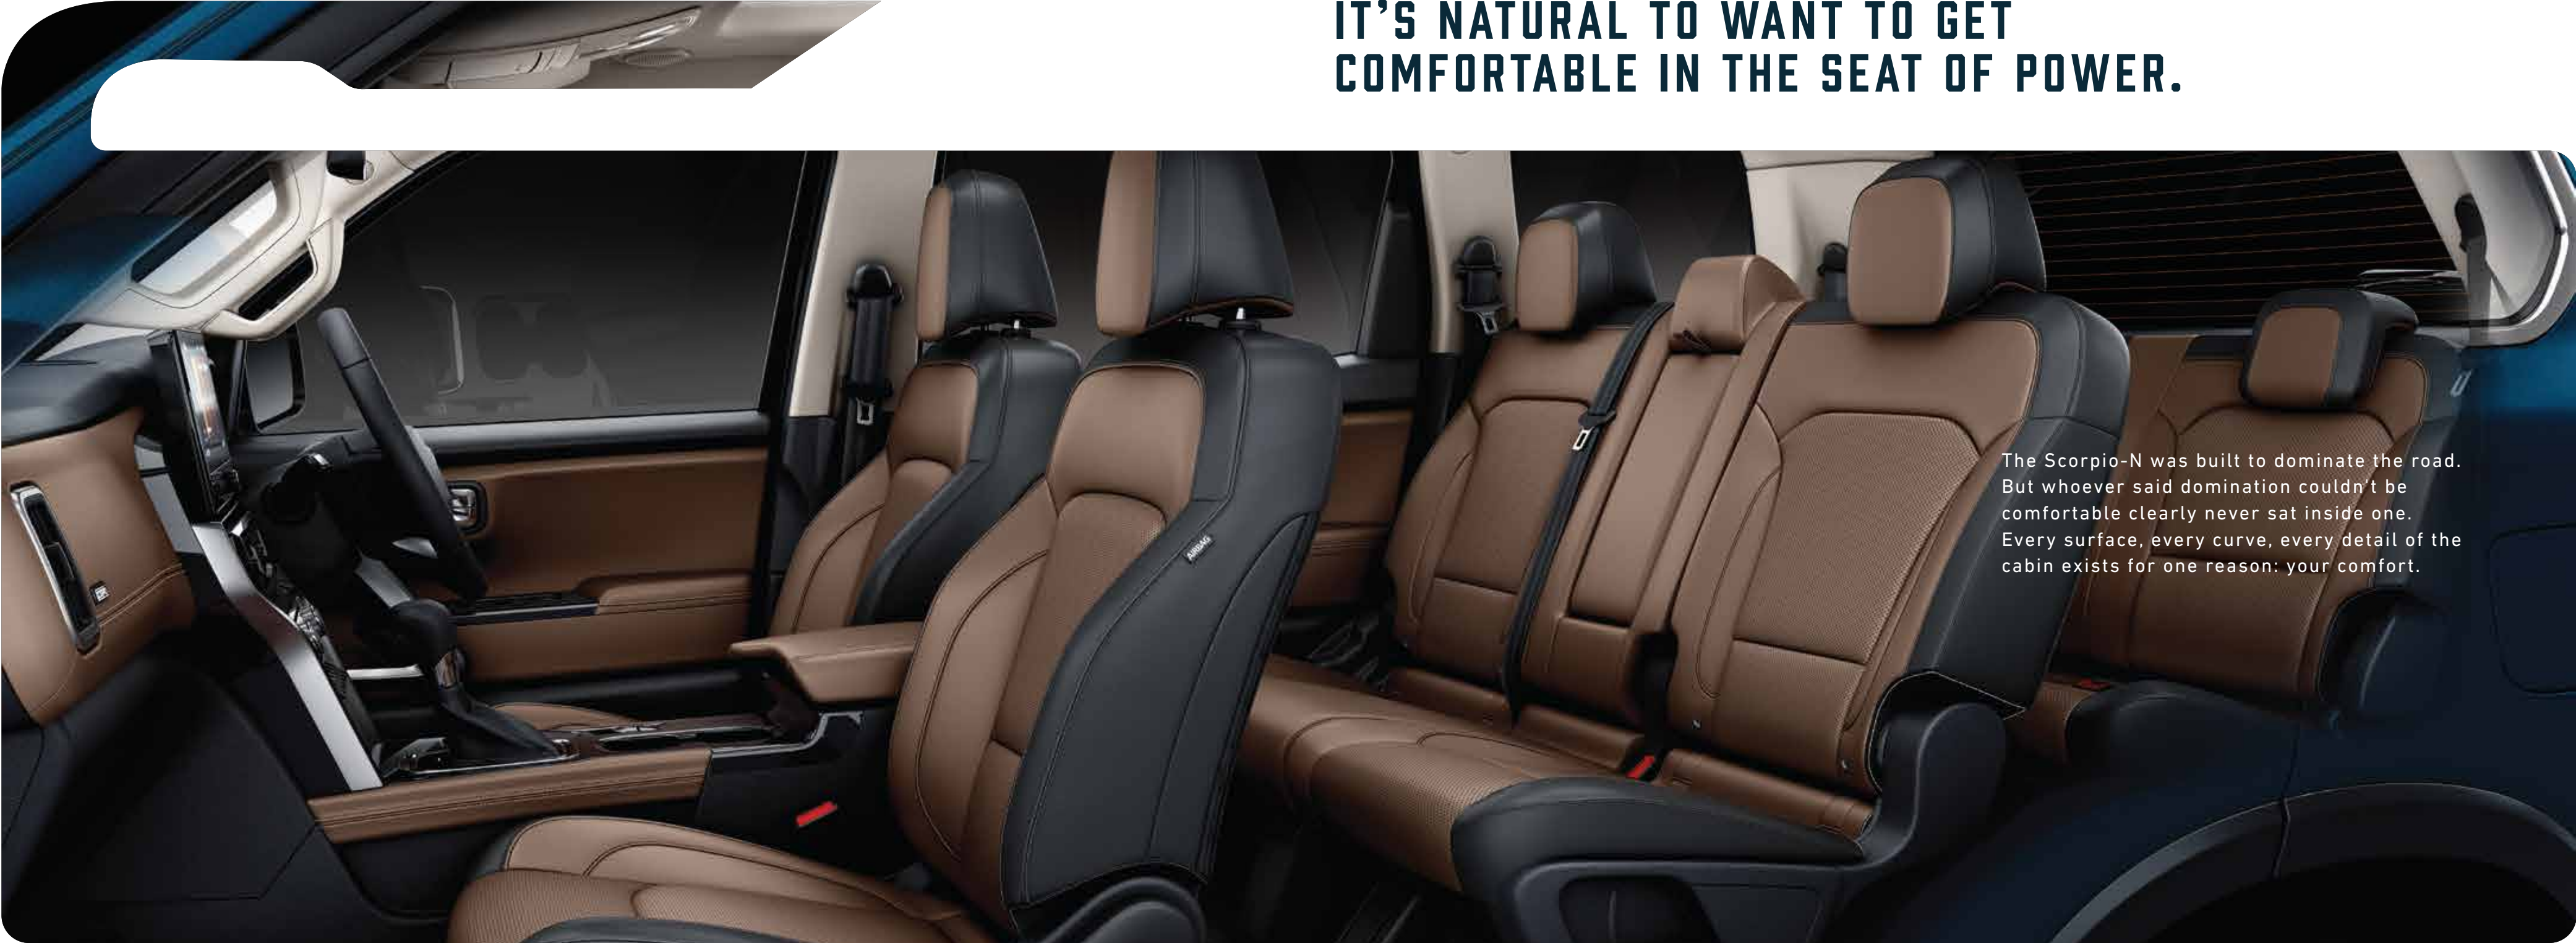

Six Gears. Zero Complaints.

Manual or automatic, both transmissions come with segment-first, shift-by-cable technology. What that means for you: every shift feels clean, instant and satisfying.

Zip-Zap-Zoom

ZIP for easy control and smooth riding, especially through traffic. Zap for a true Mahindra SUV performance. Zoom to amp it up for a more engaging and potent drive quality.

The image shows the interior of a car, specifically the front and rear seats. The seats are upholstered in a combination of brown and black leather. The front seats have a high backrest and a headrest. The rear seats are also visible, showing a similar design. The car's interior is well-lit, and the seats appear to be in excellent condition. The text "IT'S NATURAL TO WANT TO GET COMFORTABLE IN THE SEAT OF POWER." is overlaid on the top right of the image.

**IT'S NATURAL TO WANT TO GET
COMFORTABLE IN THE SEAT OF POWER.**

The Scorpio-N was built to dominate the road. But whoever said domination couldn't be comfortable clearly never sat inside one. Every surface, every curve, every detail of the cabin exists for one reason: your comfort.

Preempting Your Arrival

Power shouldn't keep you waiting. With remote engine start and climate control, the Scorpio-N prepares itself before you even step inside. Furthermore, the Adrenox Connect app puts you in absolute control of geo-fencing, the windows, and the Skyroof™ from afar.

Six Degrees Of Authority

We gave the Scorpio-N the highest command seating* for a very simple reason: you deserve to see the big picture. Whether you prefer a low, tucked-in seat or a high, unobstructed view of the horizon, the 6-way power-adjustable driver's seat sculpts itself to your preference at the touch of a button.

Everybody Gets To Play King

Agreement is entirely overrated, especially when it comes to temperature. The Dual-zone Fully Automatic Temperature Control allows you and your co-passenger to dictate your own individual climates without compromise. Meanwhile, the dynamic rear AC flows to every corner of the cabin.

Room For Ambition

Available in both 6 and 7-seater configurations, the Scorpio-N features wide, body-hugging seats with exceptional thigh support to make long journeys feel remarkably brief. To elevate things further, we've introduced updated premium seat materials.

* in its class

2 Tons Of Metal That Floats

The topography below might be chaotic, but you'd never know it from the inside. Armed with a category-first Penta Link suspension featuring WATT's Linkage, the Scorpio-N remains perfectly level where other vehicles falter. Combined with segment-first Frequency Dependent Damping (FDD) and advanced shock absorbers, harsh road impacts are quietly swallowed before they ever reach your seat.

Pack Everything And Then Some

786 litres of boot space with the third row folded. The kind of number that makes you rethink what you thought you could bring.

Effortless Control

Electric power steering that's light enough for city lanes and precise enough for mountain bends. Every input answered. Take every corner with confidence.

IT'S GOT EVERYTHING. EXCEPT AN EQUAL.

Let other SUVs debate who is the second best. When it comes to capabilities, no one else even comes close to the Scorpio-N.

The Great Torque-Fest

The Scorpio-N is built with rear-wheel drive for a reason. More torque. More authority. More of everything that makes it what it is.

4XPLOR

Tame Every Terrain

Mud, sand, snow, or tarmac, the landscape simply cooperates. Armed with the advanced 4XPLOR intelligent terrain system and dedicated 4-High/4-Low gears, the vehicle handles the mathematics of traction automatically. You just choose the destination.

Power. Clad In Steel

The next-generation 3G frame wasn't carried over. It was engineered from scratch. Stiffer, stronger, more capable. High-strength steel throughout. The kind of foundation that makes everything built on top of it feel unshakeable.

Losing Grip Is For Amateurs

The Brake Locking Differential electronically locks all wheels the moment things get slippery. The road doesn't get a say.

IT PROTECTS AS HARD AS IT DOMINATES.

At Mahindra, we always set the absolute highest benchmark for safety. The Scorpio-N simply continues that legacy with zero compromise.

BLINDED BY NONE.

The Auto-Dimming Interior Rear-View Mirror instantly neutralizes harsh glares from vehicles trailing you, keeping your rear visibility perfectly crisp and comfortable.

Perpetual Vigilance

If the system senses your focus beginning to waver on long journeys, the Driver Drowsiness Detector triggers an immediate audio-visual alert. Furthermore, if an emergency ever arises, a simple press of the SOS button (or automatic crash detection) instantly broadcasts your precise coordinates to With You Hamesha and your emergency contacts. Consider yourself permanently looked after.

An Absolute Cocoon

Should the unthinkable occur, you are enveloped in a fortress. Six strategically placed airbags, covering the front, side, and curtain areas, ensure that every occupant is thoroughly shielded from every conceivable angle.

Never Lose Your Footing

The Scorpio-N answers only to you. Its comprehensive Electronic Stability Control (ESC) suite, packed with 18 distinct features, maintains unshakeable stability during high-speed maneuvers, steep turns, and panic braking. It simply refuses to lose its footing.

WITH ESC

WITHOUT ESC

THE NEXT BEST THING TO A CO-PILOT.

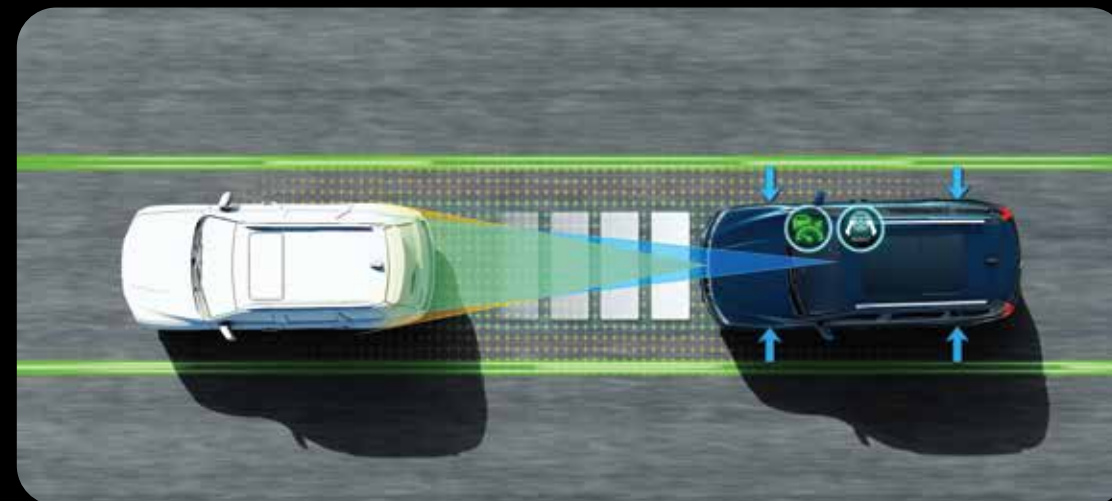

Scorpio-N, available with Level 2 ADAS.

Auto Emergency Braking

Automatic Emergency Braking (AEB) constantly scans the surroundings. It detects potential collision situations involving vehicles, cyclists, and pedestrians.

Lane Departure Warning

The Lane Departure Warning (LDW) system offers visual, audio, and haptic alerts to the driver whenever the car is going out of its lane on either side with/without driver input.

Speed Limit Assist

When a speed limit sign is detected, the Speed Limit Assist warns the driver with a blinking telltale if the vehicle is overspeeding. SLA also assists the driver to adjust the cruise speed to match the speeding limit (within onset) with a single button.

Smart Pilot Assist

The Smart Pilot Assist employs a virtual smart pilot to take charge of steering, acceleration and braking to help the driver maneuver Scorpio-N better.

Adaptive Cruise Control with Stop & Go

Adaptive Cruise Control (ACC) with Stop and Go is accessible on AT models. It automatically adapts your vehicle's cruising speed to match the pace of the vehicle ahead giving you seamless city and highway cruising without the need for frequent braking and reactivating cruise control.

Ready & Steady

Uphill ride or downhill descent, it’s no worry with The Scorpio-N. Hill Hold to hold it from rolling back, in case you’ve stopped uphill. And Descent Control to limit its speed without your input when going downhill on a steep slope.

Everyone's Safe When Daddy's Around

ISOFIX / i-SIZE child seat compatibility helps keep your little ones securely protected on every journey.

Brake Right

Daddy doesn’t usually stop. But when he does, he stops with precision. ABS and EBD, coupled with all four disc brakes, ensure confident braking performance.

Monitors Danger

The state-of-the-art tyre pressure monitoring systems keep the tyre pressure and temperature in check and alerts you to keep you averse from danger.
